

Remo 201

Lesson 1: Introduction

Welcome to Remo 201 in this series. We'll take what we learned in Remo 101 and learn more features and how to create a more enhanced event experience for your guests.

If you want to have a more interactive experience, please join us in our success labs, masterclasses, or workshops – a full schedule can be found at <https://academy.remo.co/live-trainings/>

Masterclass and workshop recordings can be accessed on our website through the Remo academy or in the Remo Revolution Community. Masterclasses are held on topics such as event use case tips and tricks, specific features how-tos or other content related to virtual events.

Let's begin Remo 201.
